

VEND IT NOW VENDING INFORMATION BOOKLET

Specializing in Snacks, Drinks,
Coffee and Healthy Vending

ABOUT US

At Vend it Now we do things a little differently. We have partnered up with some of the most established and reputable vending companies in the Country. This enables your organisation and staff to receive the best of the best when it comes to a vending service because the leg work is already done. We operate Australia wide and have assisted thousands of businesses with their vending requirements.

Vend it Now has 15+ years in business development and the vending industry. The key ingredient to our success is our team and partnerships we formed and dedication and focus that we give to all of our customers.

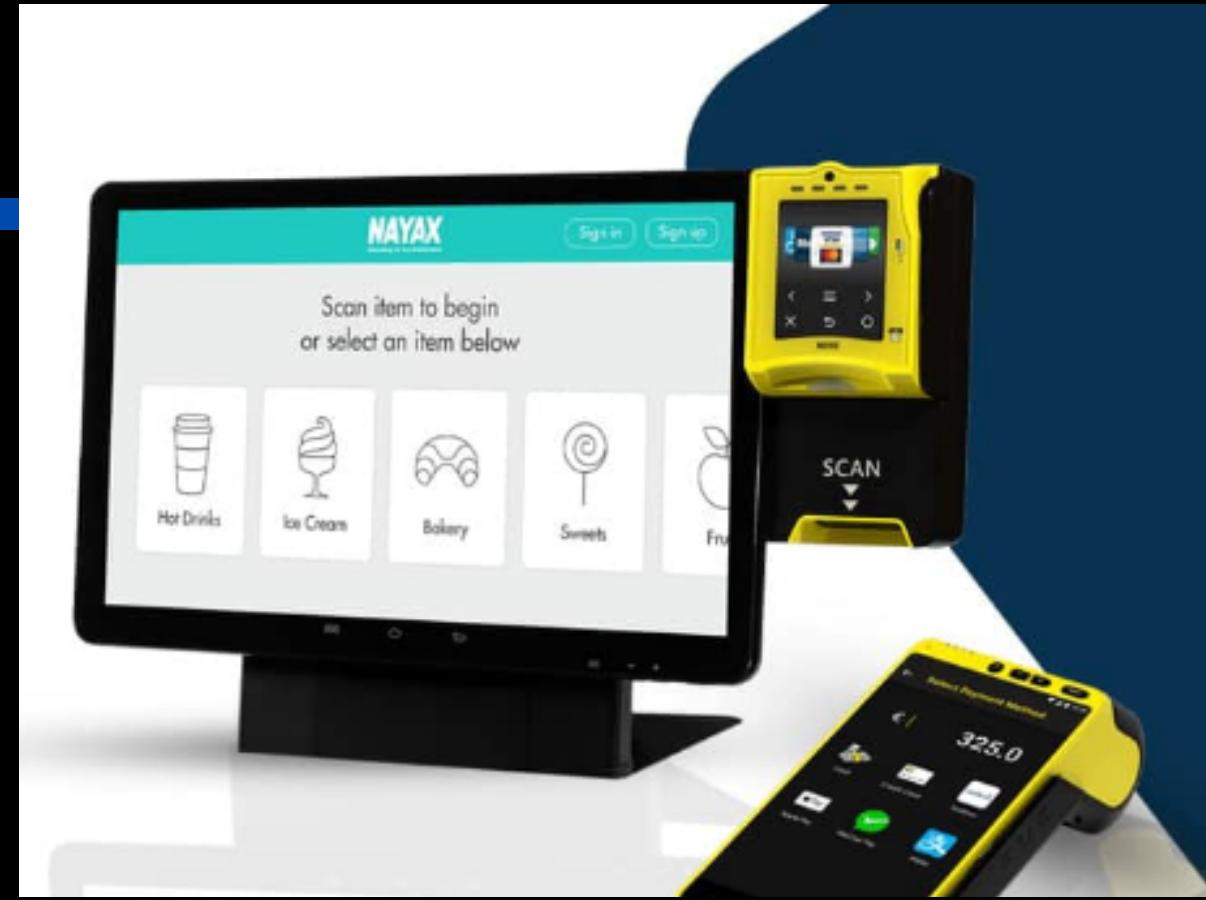

Many of our partners are also members of the Australian Independent Vending Association and this ensures you will get the highest standard of service on offer.

Along with our first class service comes the state of the art equipment and technology we have access too and can supply when we do our installs. Every machine installed for your staff and organisation will have everything taken care of and all your expectations met.

Having built solid foundations with many vending companies allows us to provide competitive prices and one of the most extensive product choices going around. On top of these features we still would like to reward all our customers by giving a percentage of sales back to you.

Vend it Now is a one stop vending supplier specializing in your snacks, drinks, healthy and coffee vending needs so get in touch with us today and find out how we can assist you.

BENEFITS TO OUR CUSTOMERS

STATE OF THE ART

We are very customer focused and part of the Vend it Now is to make sure we have all the latest vending equipment and technology at our finger tips. We use some of the most robust, popular and user friendly vending machines in the world and have incorporated the ease of use with one of the best and most efficient credit card payment systems in Nayax.

Nayax is a leader in there field being strong and reliable. Along with all our machines being monitored, faster transactions speeds and 24/7 support through our tech support team we do our upmost to eliminate any issues that can or may occur in an everyday vending machine.

COMMISSIONS AND REBATES FOR YOU

Quite often due to the extensive range on offer and large format machines, customers who had had rebates in the past see a dramatic increase to their existing rebates because of the different options Vend it Now can offer customers. All our machines are monitored and rebates are paid directly into your bank account. If you think you are not getting maximum return from your current vending operator or want to investigate a competitive rebate structure phone or email Vend it Now Vending.

MAINTENANCE SUPPORT

As a first line of defence, we monitor our vending machines remotely. In most instances we will know if there is a problem with the machine before you do. In the event that there is an issue with the machine, all our Vending Machine Operators are trained in how to diagnose and repair basic faults. If there is something you feel needs our attention simply phone 0421 665 162 or speak to our representative directly on their next visit. If there is something that requires further attention then a technician will respond as soon as possible. Best of all services are provided free of charge.

ENERGY FRIENDLY AND SUSTAINABLE

With good quality machinery comes energy efficiency as standard. Most of the latest machines today are more energy efficient than ever before. Together with thicker insulation, more efficient refrigeration systems as well as LED lighting, the vending machines today are more efficient than ever. Customers who have switched to a brand new vending machine often see a decline in their energy usage, a welcome site for any business operator.

OUR MACHINES

INNOVATIVE AND RELIABLE

Vend it Now work with the best of the best in their respective fields so we can provide the best and most popular vending models. The vending machines we commonly install are the most user friendly and robust units in the world.

We offer combo snack & drink machines, snack only, drink only and coffee vending. We source our core vending machines direct from the USA and China and all our machines meet all Australian standards, are all energy efficient and come with all the latest payments systems.

DECREASE DOWNTIME INCREASE STAFF MORALE

As a customer focused business we often look to our customers for feedback. Most often the feedback we receive, shows an increase in productivity and staff morale. We have managed to help several of our customers roll out vending machines to all of their sites as part of a holistic approach to staff retention.

When we receive feedback from my vending representatives and more importantly directly from staff they are often impressed by the service, quality and excited to see their favourite products in the vending machines.

HEALTHY VENDING

We find especially in today's push for a healthier lifestyle and way of living, we have had to adapt with the times, so we have worked extremely hard and implemented a fantastic range of healthy meals. This is to accompany the normal snacks and drinks as we have had to adhere to specific policies and standards of health conscious organisations. Every business is different and we believe we can provide something for every industry and location.

We'll use a traffic light system to cater for extremely health focused industries like schools and hospitals as it's important we meet the certified health standards applicable to their respective organisation. We understand healthy products are a must in all vending machines and we partner with the best in the business so we can offer these alternatives to your business.

COFFEE VENDING

Vend it Now offers the complete vending experience and would like to accompany our everyday snacks, drinks and healthy vending with a top quality free serviced coffee vending unit. The machines used are imported direct from Italy and the beans are locally sourced and roasted from baristas around the Country.

Most of Coffee vending machines we install will have the option of up to 16 different coffee flavours including hot chocolate and soups. We will service, clean, fill and manage the coffee machine for you while you enjoy a fresh roasted bean cup for a very competitive price of \$2 across the board.

Why not incorporate a cafe quality coffee vending machine for your staff and the best part again is the Service is Absolutely FREE, no strings

OUR VALUES

Our values and motto is about customer service and we pride ourselves on our commitment to customer satisfaction. This has made us successful in providing our services to many organisations across the Country and with a great team onboard and positive attitude we want to continue assisting businesses and keep offering this complete service which is second to none.

SAFETY FIRST

At Vend it Now our work means our representatives visit all manner of companies and organisations. We make it a priority for any Vending Machine Operator who attends your business to complete any induction or safety procedure you require of them. To further adhere to your standards all staff are required to obtain a police clearance and while on site wear (if required) the appropriate PPE including hard hat, fluro vest, safety toe shoes, non slip footwear and safety glasses.

CHARITY WORK

Vend it Now Work and have built long lasting relationships with Vending Operators and representatives who are part of the Independent Vending Association of Australia and with this comes some great support for charities and Vend it Now contributes to the Women's & Children's Foundation and work closely with many who support the Starlight Foundation.

COVID SAFE

In light of what's been happening in Australia and around the world we sanitise all our equipment regularly and all our staff abide by all the safe distance measurements and we do our best efforts to make things as contactless as possible.
